TEAKWOOD.

A "timber" purchase is contemplated by the bureau of supplies and accounts of the Navy Department under an invitation for proposals to be opened on July 14th for 1,500,000 feet of teak, log and docking. It is estimated that the cost of this material will be about \$350,000 and the bidders are asked for prices with a view to delivery at New York, Norfolk, Manila or Rangoon, in Burma. This teak is required for decking and armor backing for battleship No. 29, under construction at the New York Navy Yard. The present purchase of teak will supply three or four ships with the material and it is desired in anticipation of the future need of teak to accumulate a reserve stock, as has been done in previous years. The last purchase was made at a time when the teak was brought to the United States by the Brutus and Caesar after towing the floating drydock Dewey to the Philippines.—Army and Navy Register.
